Our Mission

To elevate everyday living through beautiful, reliable, and sustainable uPVC window and door systems that blend design, durability, and innovation.

Our Vision

To be the most trusted name in modern fenestration — admired for our quality, chosen for our integrity, and remembered for our service.

Superior Quality -

Total process control

We regulates quality throughout the entire process from the product design to production and distribution

- In house R&D center —• Quality training center —• Design center

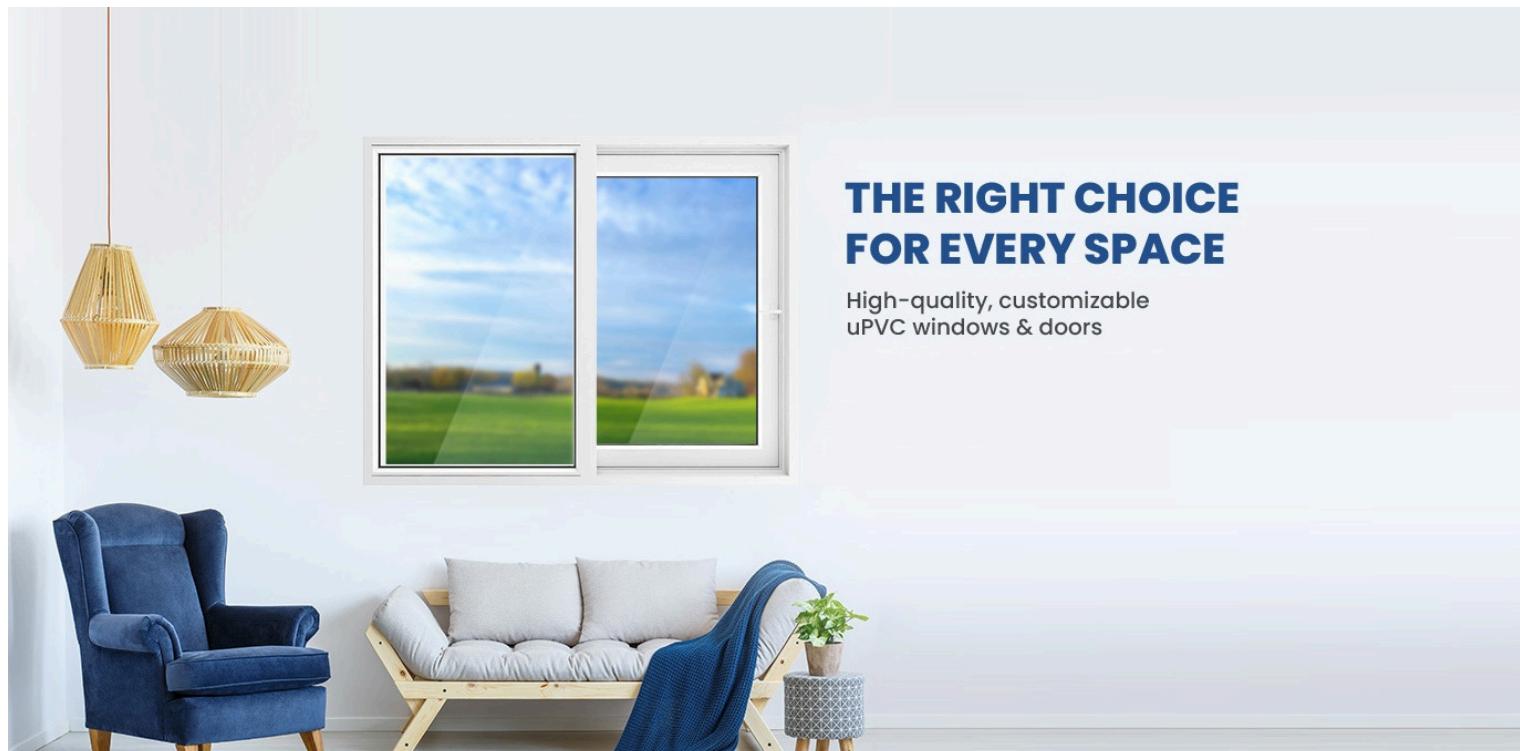

Using genuine product for 100% performance

For optimum window quality only using genuine profile and accessory

Eco-Friendly Recipe

Our profiles is free of lead, cadmium and mercury which is a harmful heavy metal

THE RIGHT CHOICE FOR EVERY SPACE

High-quality, customizable
uPVC windows & doors

WINDOWS THAT OUTLAST ONE GENERATION AFTER THE NEXT.

About Glazion

Glazion delivers world-class uPVC profiles for stylish, durable, and energy-efficient windows and doors. By combining European technology with Indian precision, our products offer unmatched insulation, sleek aesthetics, and lasting performance.

With years of expertise, we provide superior protection against heat, weather, moisture, and noise, transforming spaces into modern, energy-efficient environments. Guided by innovation and global quality standards, we set new benchmarks in performance, durability, and sustainability — making every Glazion installation a step toward a smarter, more beautiful future.

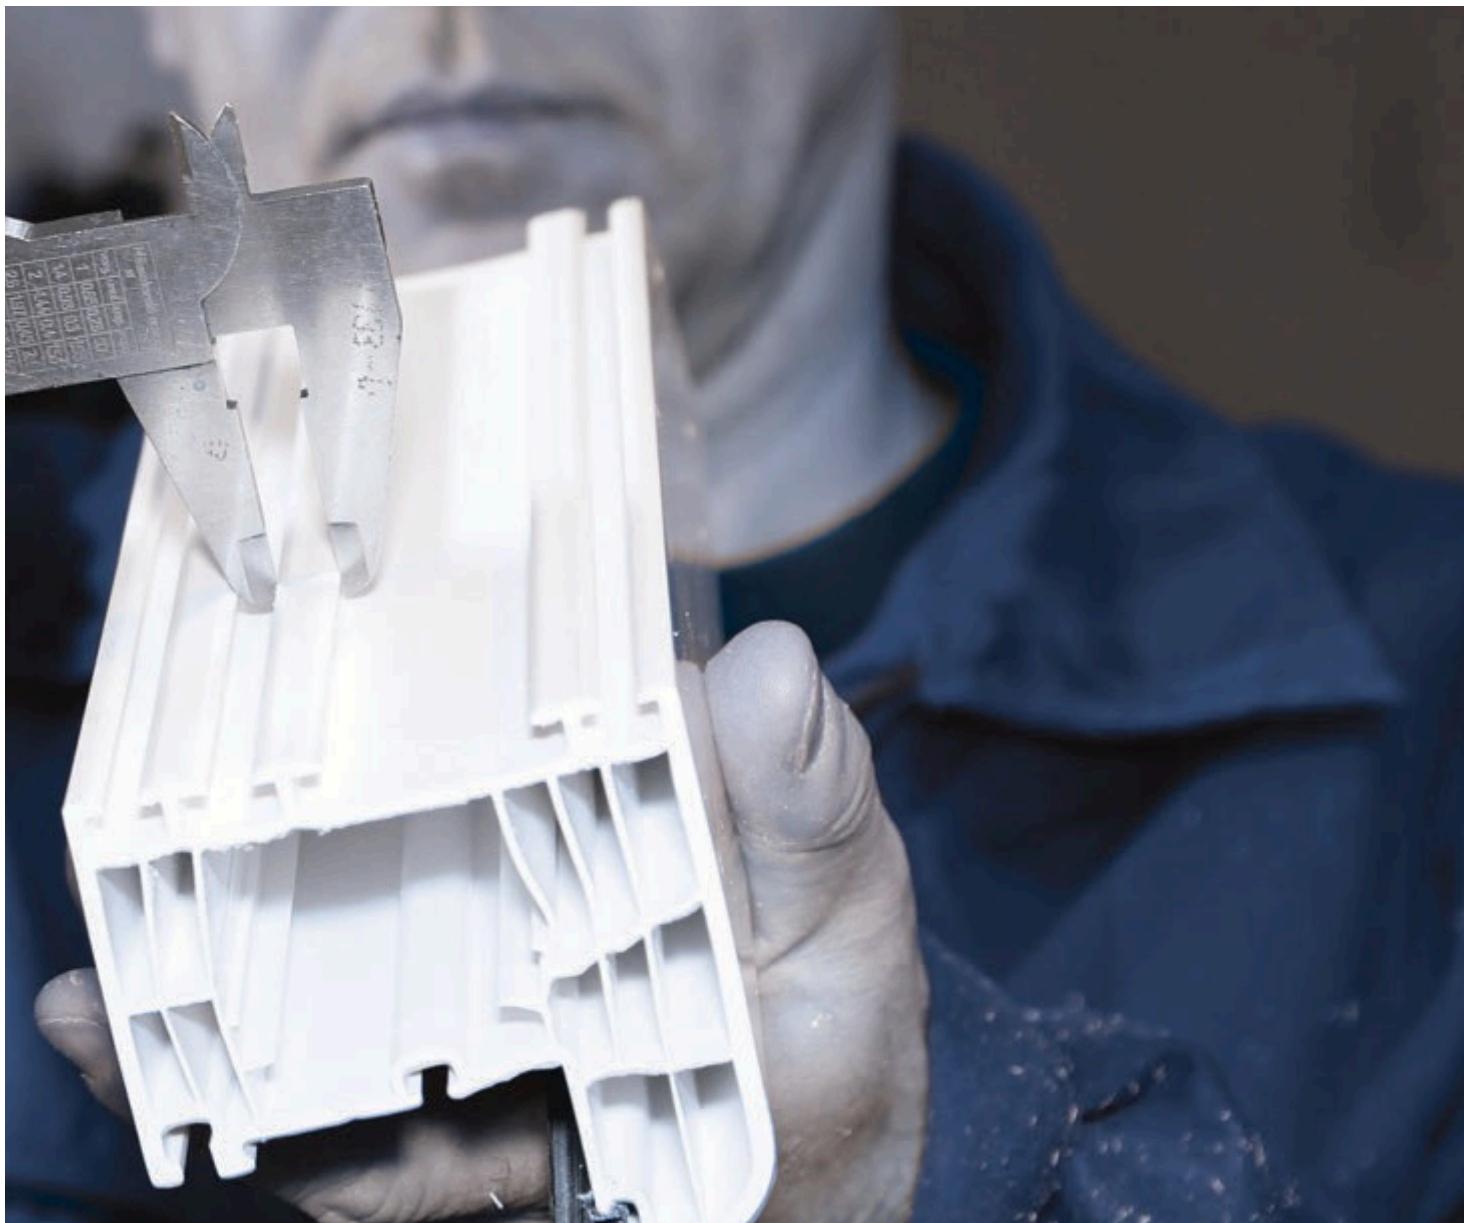

What We Offer

- uPVC Windows: Casement, Sliding, Tilt & Turn, Fixed, Bay & Combination
- uPVC Doors: Sliding, Casement, French, Fold & Slide, Lift & Slide
- Customized Solutions: Tailored sizes, colors, glazing, and hardware to match your project needs

Why Choose Glazion?

- High-Quality Raw Materials – Our products are made using premium-grade uPVC profiles and advanced German machinery.
- Energy Efficiency – Designed for insulation, our systems reduce energy consumption and utility bills.
- Weather & Sound Resistance – Sealed frames that withstand harsh weather and reduce outside noise.
- Low Maintenance – Rust-free, termite-resistant, and easy to clean.
- Eco-Friendly – 100% recyclable materials with minimal environmental impact.
- Expert Support – From site survey to installation, we provide complete guidance and after-sales service.

LITTLE DETAILS. THAT MAKE A LONG-LASTING DIFFERENCE.

Making a window isn't just about making it. It's about ensuring it's made perfect. When every little thing, complex or simple, is perfect too.

At Glazion, the process of designing windows is far more sophisticated than the expected. PVC along with additives of highest quality, gets converted into the finest profiles. Our attention-to-detail borders on obsession, to make sure nothing is left to chance. All, so that every window produced from our factory, is nothing short of extraordinary. And is a work of engineering that lasts generations. The ideal solution for your home.

GLAZION

9 REASONS, FOR YEARS OF PERFECTION.

Long Lasting and Durable

Windows and Doors made from Glazion uPVC Doors and Window are going to last for a long time and will be practically maintenance free making them an excellent investment

Weather and Water Resistant

Unlike other Building Materials, Glazion uPVC Doors and Window retain their properties even after long service life and do not alter under extreme weather conditions.

Wind and Dust Resistant

Glazion Doors and Windows are Arid and Dry Climates. They are perpetually exposed to Scorching Sun Light, Corrosive Salty Air, Strong Winds carrying Grit, and Heavy Rainfall, but remain structurally intact and keep Windoes wind and Dust Proof.

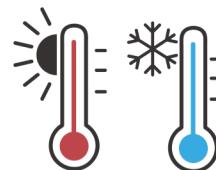

Fire Retardant

Unlike Timber Windows & Doors, Glazion uPVC are naturally flame retardant through-out their life. They will not cause, support, or enhance the development of accidental fire making them an effective means of fire protection.

Sound Diminishing

Glazion multi-chambered uPVC design diminished the decibels of sound penetrating through the Window & Door. This combined with the right selection of Glazing Thickness.

Thermal Insulation & Energy Saving

No Matter What climatic extremes exist in the area where Windows and Doors with Glazion uPVC have been installed, they provide a Cool or Cosy internal ambient making your Home a comfortable place and also saving on HVAC & Heating costs.

Termite Resistant

Termites are a common problem that degrades buildings' internal structure over time. Glazion uPVC are highly resistant to Termites, preventing significant damage

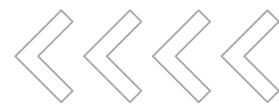

Maintenance Free

All it takes is a wet wiper cloth to clean the external dust and grime off the profiles to bring out a new and original look to the windows and doors from Glazion uPVC profiles, making the installation virtually maintenance free.

Structurally Strong & Secure

Glazion uPVC tropical mix formulation meets world class standards for strength, durability, heat stability, color retention, and weather and termite resistance. Providing an extra margin of safety. They are suitable to use in high rise buildings.

ONLY THE FINEST, CAN MAKE THE FINEST.

The Glazion Manufacturing Facility

The finest profiles come manufactured from one of the finest facilities in the country. The Glazion manufacturing plant is state-of-the-art. It is located in Hyderabad, and is as massive as it is advanced. Putting expertise and precision, right at play, to make every profile perfect.

2,00,000 sq.ft.

Extrusion lines

Lamination & arch bending facilities

Highly-competent employees

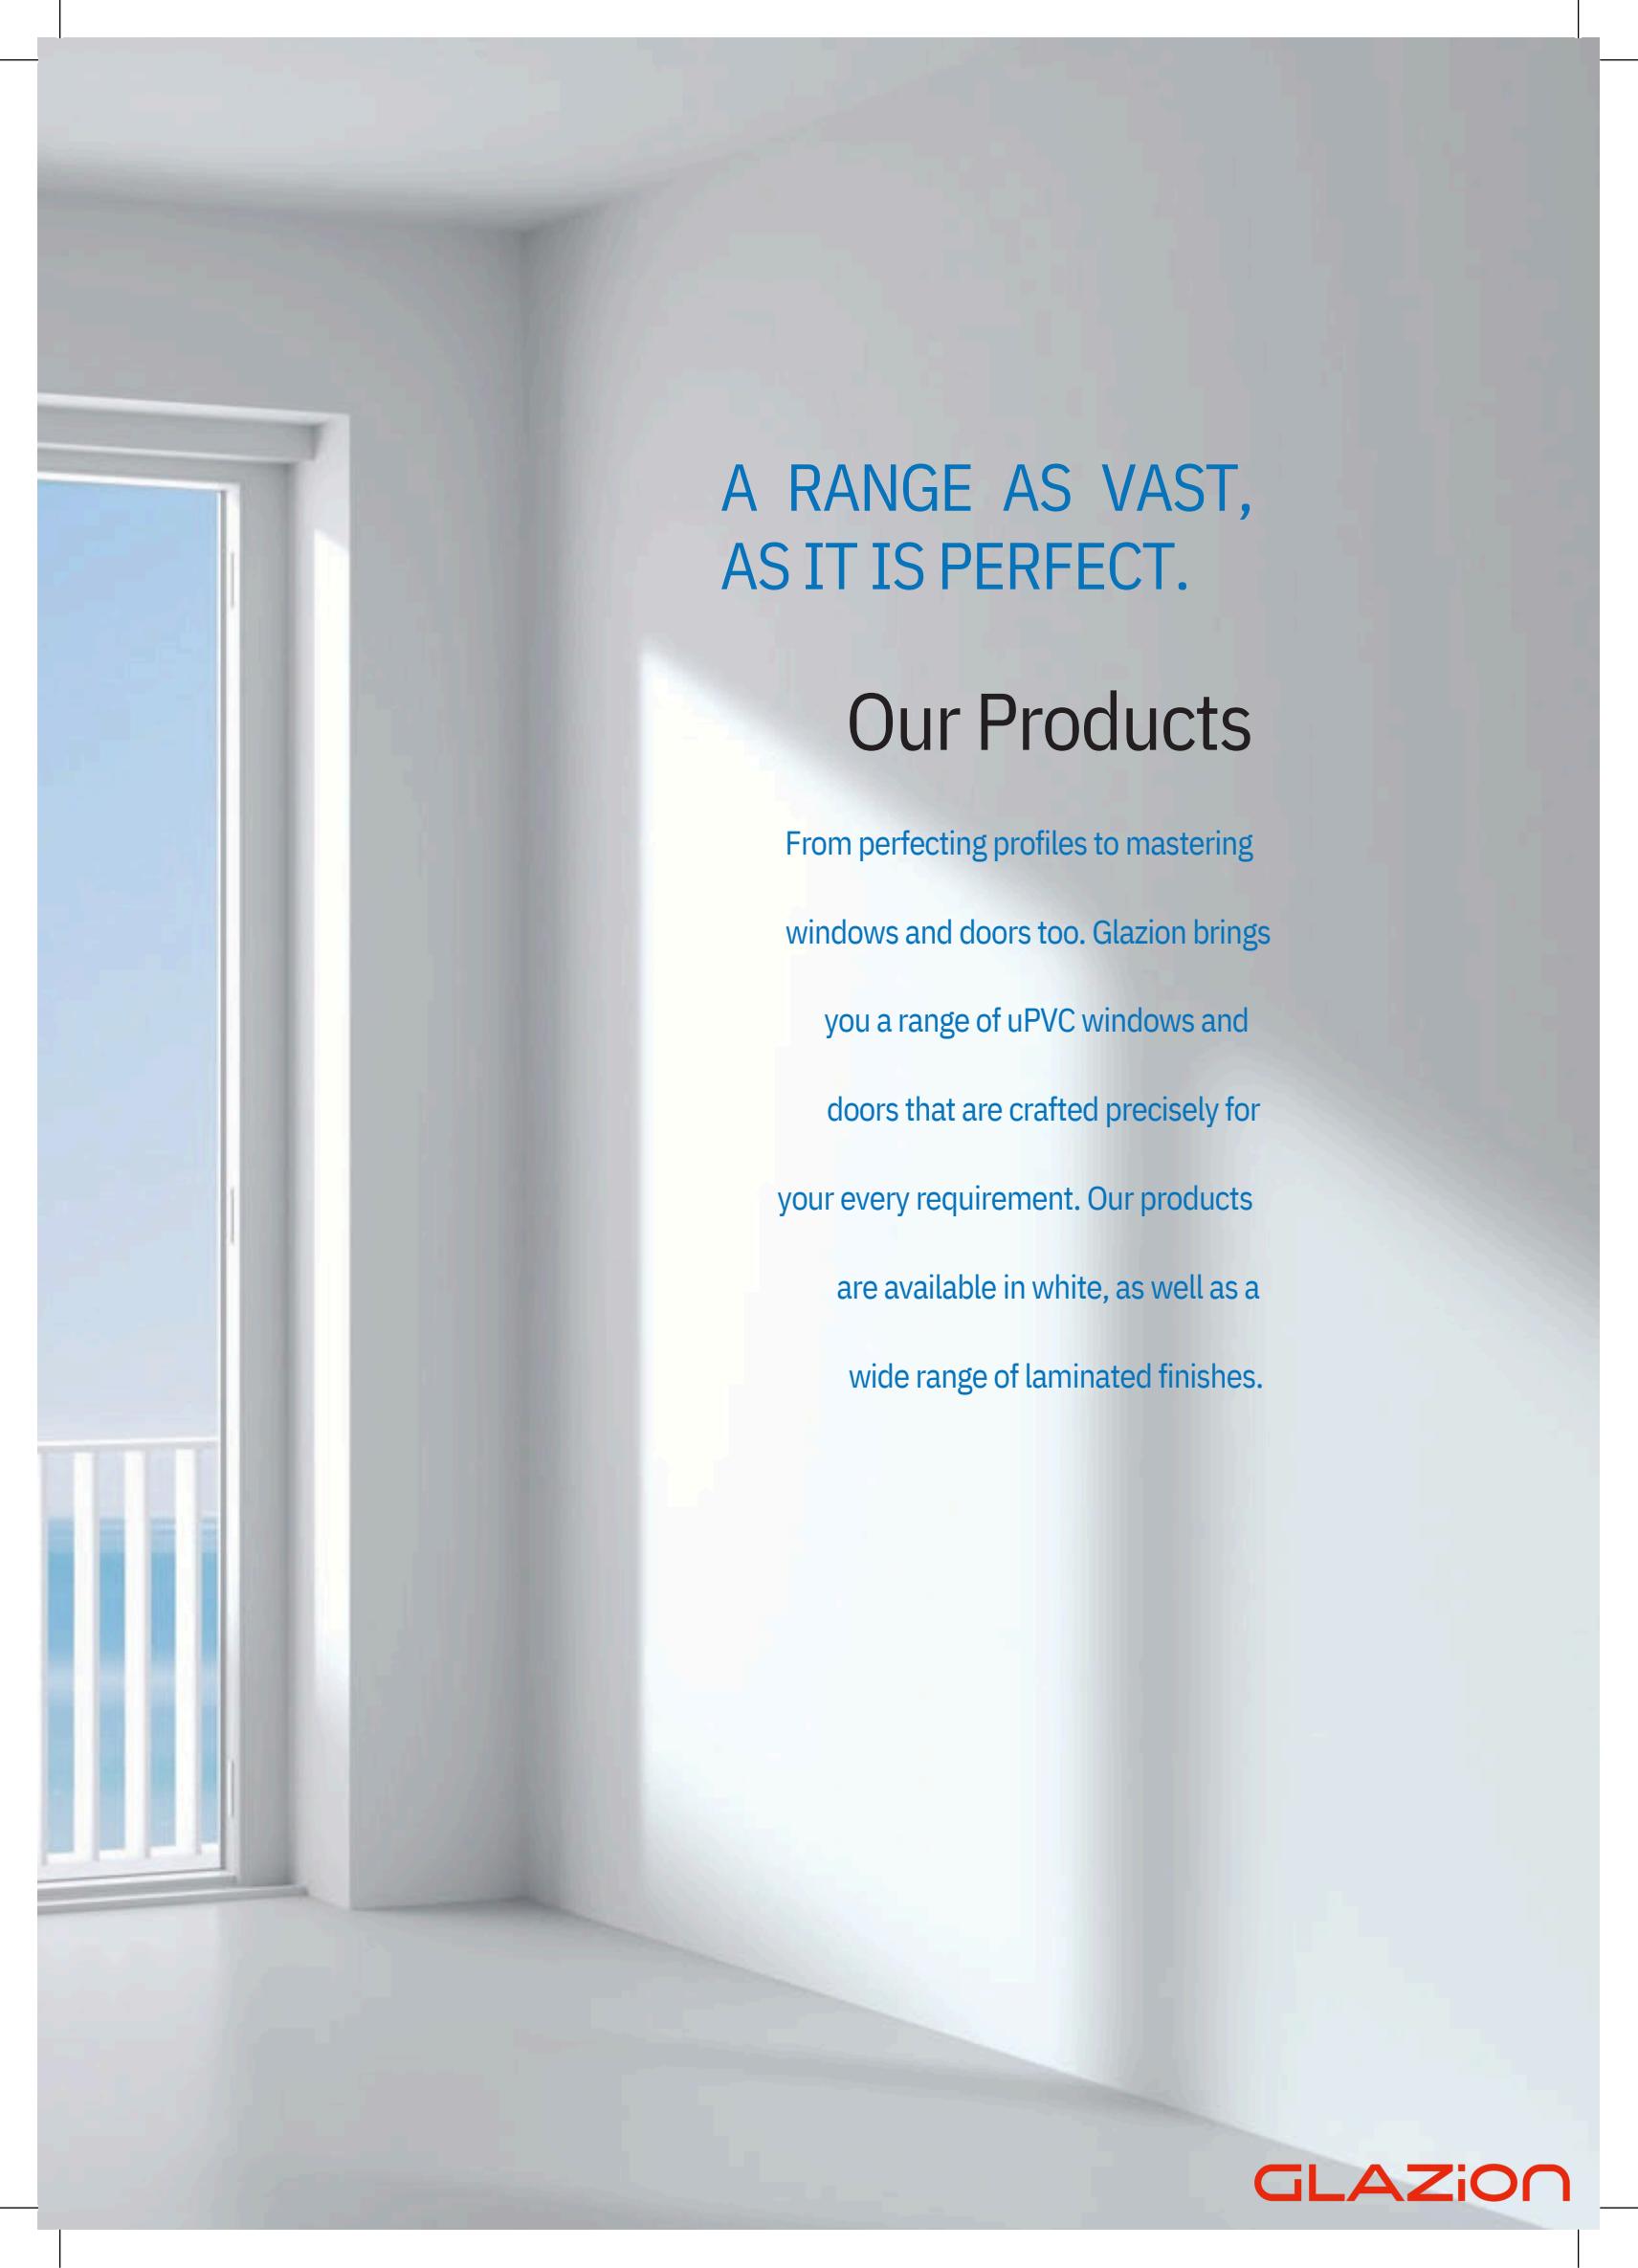

Our R&D and Quality Control Centre is manned by engineers who are more than merely qualified, to ensure there's no compromise on quality at any stage. Profiles manufactured here are lead-free, and conform to British Standard BS EN 12608, with tropicalised uPVC compound, using the highest quality additives from Europe, to suit Indian weather conditions.

GLAZION

GLAZiON

A RANGE AS VAST,
AS IT IS PERFECT.

Our Products

From perfecting profiles to mastering windows and doors too. Glazion brings you a range of uPVC windows and doors that are crafted precisely for your every requirement. Our products are available in white, as well as a wide range of laminated finishes.

THE SLIDING SERIES

Sliding Windows and Doors come in the I-44, I-50, I-60, I-64, and I-75 Series. A range this wide provides flexibility to fabricators and end-users. They're available in 2-track, 2-track with fly-screen, 3-track, etc., to suit specific customer requirements. We provide glazing options, ranging from 5 mm to 24 mm.

PRODUCTS ➤

Arch Windows

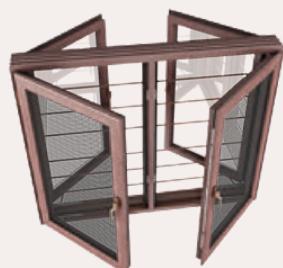

I-60 Casement profiles have the flexibility to be bent into arch shapes, giving a traditional look to the building.

Our in-house arch bending facility is capable of fabricating arch windows with options of single and double glazing.

Lift and Slide Doors

Apart from regular Sliding Windows & Doors, We are offering its most premium system, called LSD153, in the Indian market. It is a lift-and-slide door system that is widely used in top-class building structures, such as bungalows or villas, luxurious or boutique hotels, premium quality condominiums, and showrooms. This system is able to satisfy the most stringent requirements in terms of weather tightness, thermal and acoustic insulation, thus providing the residents with the highest level of comfort, and greatly enhancing the living or working environment. A maximum door size of 6000 (W) x 3000 (H) can be built with this system, giving an unobstructed view of the outside.

Twin Sash Grill & Mesh Windows

Twin Sash Grill & Mesh Windows are aesthetically superior. The window system is available in I-60 Casement Series with multi-point locking hardware that provides safety and security besides keeping insects out. It also comes with an option of grill only, without mosquito screen.

- 8 mm sash overlap for superior performance
- Outward opening glass panel and inward opening mesh panel
- Glazing options – 6 mm & 12 mm single glazing / 20 & 24 mm double glazing

Slide and Fold Doors

Slide and Fold Doors offer a premium look with the maximum opening space that can be integrated into your balconies or terrace opening. The window system is available in I-60 Casement series with German hardware.

- 8 mm sash overlap for superior performance
- Multi-point locking with hardware screw fixed to steel
- Glazing options – 6 mm & 12 mm single glazing / 20 & 24 mm double glazing
- Heavy duty roller for smooth operation

Tilt and Slide Doors

Tilt and Slide Doors offer a grand view, while giving the option to tilt and slide the doors behind the fixed panel for maximum ventilation. The door system is in I-60 Casement series with European hardware, which makes it reliable, soundproof and secure.

- 8 mm sash overlap for superior performance
- Multi-point locking with hardware screw fixed to steel
- Heavy duty roller for smooth operation
- Glazing options – 6 mm & 12 mm single glazing / 20 & 24 mm double glazing

Tilt and Turn Window

Tilt and Turn Windows provide an avant-garde look to your house. These are inward-opening windows available in the I-60 Casement Series and ensure good ventilation for your home. The windows provide a higher degree of flexibility, which is suited for any building type.

- 8 mm sash overlap for superior performance
- Imported hardware with high corrosion resistance properties
- Multi-point locking with hardware screw fixed to steel
- Glazing options – 6 mm & 12 mm single glazing / 20 & 24 mm double glazing

SPECIAL APPLICATIONS

Parallel Windows

The ideal choice for maximum ventilation. Parallel Windows are safe and secure for even children's rooms, as they open only 135 mm (5 inches). And to top that, they're easy to operate.

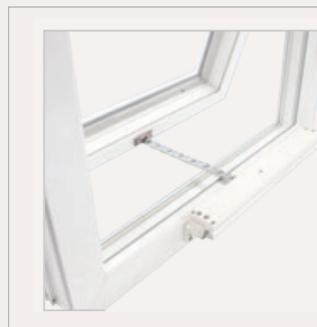

Vertical Slider

Their American style of operation makes these windows ideal for residential developments. They do not take up inside or outside space, as the shutters are sliding and can be held at any position, from fully open to closed and everything in between.

Bay Windows

Bay Windows are combinations of two or more windows connected at an angle (90 to 180 degrees) or in a curved shape. It provides a panoramic outside view and adds aesthetic value to a home.

Motorised/Lever Operated Windows

Ideal for windows installed at a height that is not accessible to operate. The lever handle can be combined to operate up to three shutters at the same time. A motorised option is also available.

GLAZION

MAKING THE VIEWS GREAT,
EVERYWHERE.

GLAZiON

THERE'S A REASON WE'RE INDIA'S FAVOURITE. FOUR, ACTUALLY.

GERMAN TECHNOLOGY

We are Using profiles German-engineered, and come with co-extruded Thermo-Plastic Elastomer (TPE) gaskets. They weld seamlessly with the corner joint, making way for better thermal & sound insulation. Not just that, they're designed remarkably, so they add to the aesthetic appeal of your windows. Glazing beads co-extruded with soft PVC gaskets come in colours to match the TPE gasket. They're durable and provide better grip to the glass.

FLEXIBLE DESIGN OPTIONS

We have more than 25 profiles to suit diverse applications. This flexibility in design makes it ideal for Indian weather conditions. Adding to that, almost any design, shape, size, and colour is possible with profiles.

END-TO-END SOLUTION

From the word 'go' we takes care of it all. Our fabricator network is not just the largest in the country, but also the most qualified. They are trained in fabricating all types of doors and windows. And from suggesting the right profiles, to finally installing them, they provide end-to-end service, so you can rest assured you're making the right choice.

UNMATCHED SERVICE QUALITY

With Technical Support Teams stationed at different locations, close to fabricators. The teams visit fabricating units regularly and audit the process being followed. They ensure compliance with specifications and process guidelines, just as laid down by the Company.

Our Projects

Glazion has seen immaculate projects around the country, from commercial to residential. Opening windows to incredible views, and making each one perfect.
